Rubberised Cork Sheets & Rolls

Moulded Rubber Products & Sheets

Rubberised Cork Sheets & Rolls

Moulded Rubber Products, Sheets & Cords

Rubberised Cork Gaskets, Frames & Washers

Automotive Gaskets

# Nu-Cork

**Total Sealing Solutions for electrical, automotive & the  
Transformer Industry**

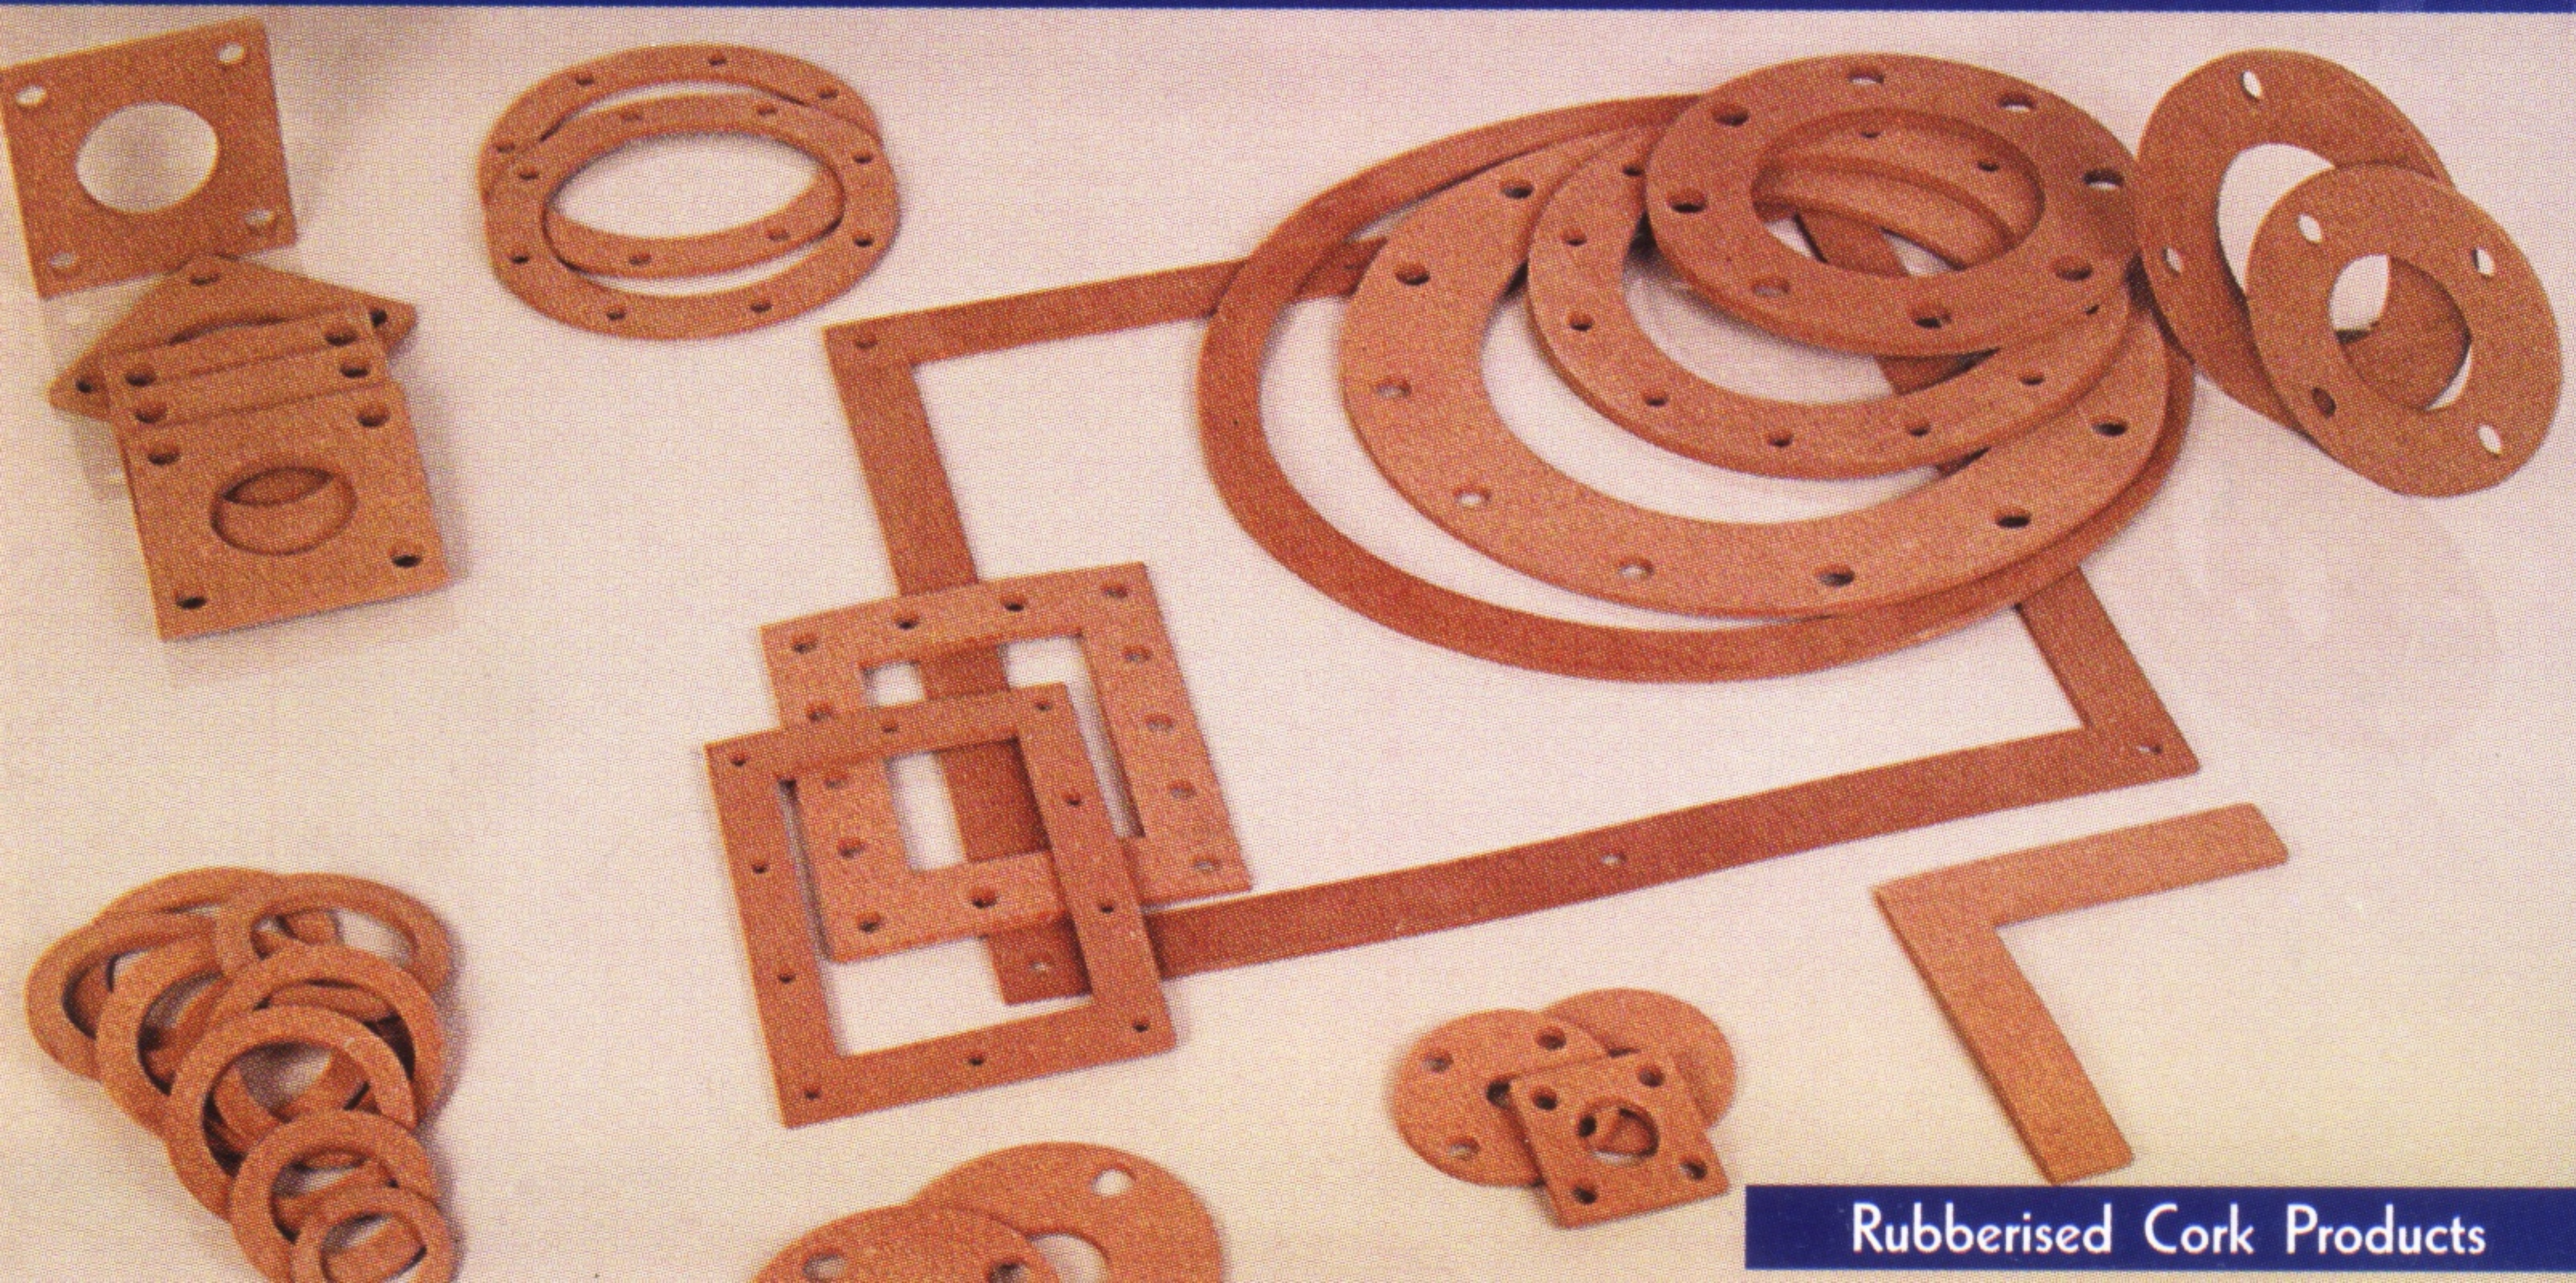

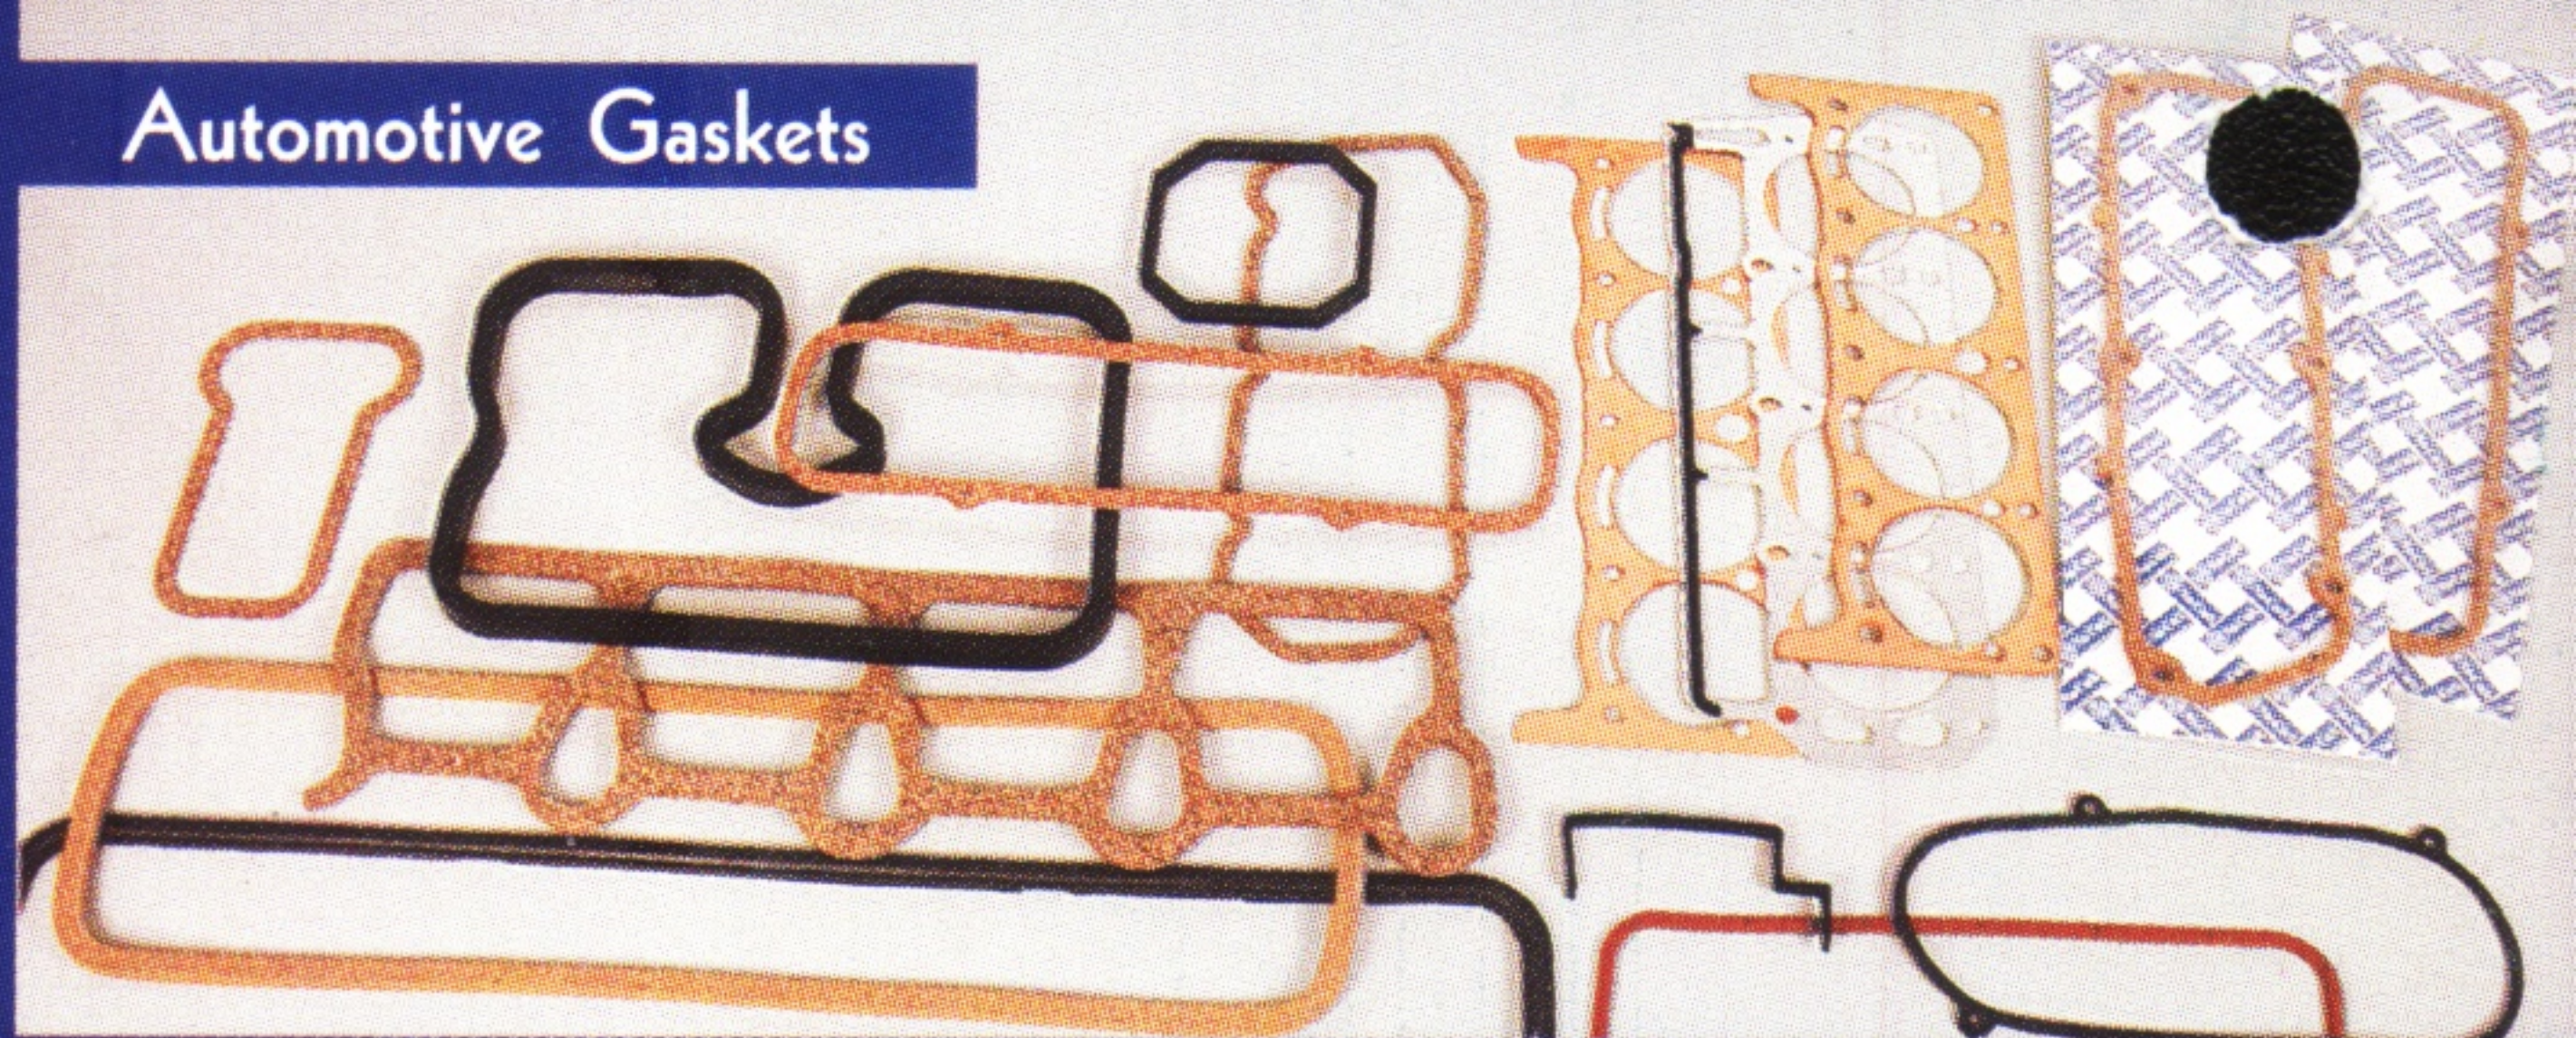

Established in 1992

Technology from Germany

High Quality Cork from Portugal

Exports to UK, USA, UAE, Thailand & Nepal

Automotive Gaskets

Rubberised Cork Products

**Nu-Cork Products (P) Ltd.**

Manufacturers, Importers & Exporters

FM 70367

## RUBBERISED CORK SPECIFICATIONS

GRADE	N 52999 RC-70C *	NS 999 SUPERIOR RC-70C
Binder	Nitrile	Nitrile
Cork Grain Size	0.5 to 2mm	0.5 to 1mm
Hardness	70 <sup>0</sup> + 5	70 <sup>0</sup> + 5
Tensile Strength (Kgf/cm <sup>2</sup> )	15.50 min	15.50 min
Flexibility (thickness x 4)	No Cracks	No Cracks
Compressibility At 28 kg/cm <sup>2</sup> (%)	25 – 35	25 – 35
Density (gm/cc)	<0.95	0.75 – 0.90
Compression set at (110±5) <sup>0</sup> C for 24+0/-2hrs. (Recovery 1 hr.)	85% max	85% max
pH Value	5.0 – 8.5	6.0 – 8.0
Recovery	80% min	80% min
Volume change after Immersion in ASTM Oil No.3 / Transformer Oil for 70 Hrs. at (110±2) <sup>0</sup> C.	15% max	8% max
	<p>Note</p> <p>A most popular material used in the Domestic market, this is highly suitable for the transformers and Engineering Application a manufactured form imported Cork Granules providing very good oil and heat resistant properties &amp; excellent Compression Set. Widely used by Electricity Boards and OE Transformer manufacturers of repute.</p>	<p>Note</p> <p>One of the most popular material used in the domestic &amp; export market, this is highly suitable for heavy engineering Applications. A material manufactured from fine imported Cork granules providing excellent oil heat and ozone resistant properties. Its excellent Compression Set and side flow properties control lateral spread tendency of ordinary Cork sheets and is therefore, best suited for Outdoor Transformers. Widely used by Electricity Authority and OE Transformer manufacturers of repute.</p>

Note :- 1. Cork Grain size/Density can be increased/decreased as per the customer's requirement.

2. Colours available : Natural/Black/Red.

3. Sizes available : 915X610 mm, 915X915 mm, & 1000X1000 mm.

4. Tested as per National and International Standard.
